Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

CODEBOOK DISPLAY NOTES

RESEARCH ON PATHWAYS TO DESISTANCE

SUBEJCT MEASURES - SCALES

ICPSR #36800-0042

PROCEDURAL JUSTICE

1. Each wave contains eight items that were converted by the Principal Investigator to transform the original variable from being a 3 or 4-point scale into a 5-point scale. ICPSR expanded the variable label to describe this conversion. The valid data for these variables has been left unlabeled.

2. Each wave contains 23 items that were reverse coded. ICPSR appropriately added the value labels to these reverse coded items.

3. Each wave contains three series of seven repeating variables across the three series. These variables are:

   S#PROJUS55 to S#PROJUS61 – “Kid caught/arrested”
   S#PROJJUS62 to S#PROJUS68 – “You caught/arrested”
   S#PROJUS76 to S#PROJUS82 – “Thrill/rush”

   Each of these scales is a rating from 0 to 10. Only the end points are labeled. ICPSR confirmed what these labels should be with the Principal Investigator and added them in.

ICPSR 36800

Research on Pathways to Desistance [Maricopa County, AZ and Philadelphia County, PA]: Subject Measures - Scales, 2000-2010

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Procedural Justice

CASEID: S0 IntInfo: Subject ID

Based upon 1,354 valid cases out of 1,354 total cases.

Location: 1-5 (width: 5; decimal: 0)
